

Help us communicate our health impact in Nigeria

Project Title	Help us communicate our health impact in Nigeria
Project Summary	Design a variety of communications materials that effectively relay important health and programmatic information in a way that is interesting and understandable for a variety of audiences. Apply both graphic design and writing skills to convey critical health and development information.
Country	Nigeria
Agency	Agency for International Development
DoS Office	N/A
Post	N/A
Section	N/A
Number of Interns	1

Project Description

We are looking for a creative and energetic individual who can work collaboratively with Nigeria-based staff on a range of ambitious and innovative projects that communicate the dire health situation facing the citizens of Nigeria and our activities to address that reality. The intern will develop and implement a strategy to support our office to communicate visually and express our ideas with skill and clarity. S/he will use a variety of design elements to achieve artistic or decorative effects to create infographics and content for presentations, publications, factsheets, and newsletters. This role will often take direction from either written and/or spoken ideas and will need to convert them into images, layouts and designs.

Desired Skills Interests

Additional Information

We are looking for a self-starter and self-motivator for this project. The Nigeria-based team will provide varying levels of support throughout the internship period, but all interactions and oversight will be conducted through

video teleconference, phone calls, and email. Subperb MS Office skills are required. While an interest in international development and international public health would be helpful to maintain interest in the program, it is not required.

Language Requirements

None
